

# **CYGNUS**

workstations for healthcare

*Mobile point-of-care  
computing has never been  
more convenient or affordable.*

**LC3000**

The LC3000 is an incredible point-of-care computing cart offering quality engineered features, all while maintaining an affordable price point.

## Intelligent Design

The work surface on our carts can be easily adjusted for use while sitting or standing with a height adjustment of over 14".

The small base footprint of only 18" x 20" combines with dual-wheel, low-friction, 360° swivel casters allowing the LC3000 to be moved easily with minimal effort.

The LC3000 can house full sized keyboards and even the largest widescreen laptops, such as the Acer, Dell and many others.

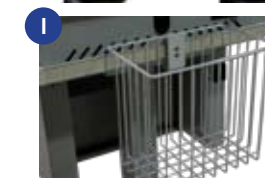

- **A** Large 22" x 21" work surface with raised drip edge.
  - **B** Ergonomic design with assisted height adjustment.
  - **C** Over 14 inches of vertical adjust, perfect for both standing or sitting.
