# BAYVIEW

collection

We are proud to announce a new addition to our complete line of wall mounted medication storage, EHR workstations and charting stations. These new cabinets can feature bevelled inlays or a smooth finish for a sleek modern look.

The BayView series' beauty is in the details, built into each and every cabinet we create. Our years of experience along with our pride in craftsmanship will assure each customer the highest quality, handcrafted cabinet.

**Extensive Design Options:** The BayView Collection offers distinctive designs, profiles, colors, finishes, glazing, mullions, multiple panels and moldings. We make it easy for you to get exactly what's want.

**Environmentally Responsible:** Our panels are produced in a Environmentally Preferable Product (EPP) Downstream facility. When combined with the wide variety of innovative and durable decorative overlays available today, wood-based composite panels create consumer products that are a great choice for environmentally-conscious consumers.
